

# Raleigh Farmers Market Wholesale Prices

2011-2014

Data source: Thursday report from the Daily Market News Report, North Carolina Department of Agriculture and Consumer Services

**NC GROWING TOGETHER**

Connecting Local Foods  
to Mainstream Markets

**This document provides historical price data by commodity as reported by produce wholesalers based at the Raleigh Farmers Market, and collected on a daily basis by the NC Department of Agriculture and Consumer Services. The graphs are based on an Excel spreadsheet of historical prices posted on this webpage (which can be downloaded by the user): <http://www.ncgrowingtogether.org/for-producers/>**

NCDA&CS daily online Market News report gives each day's high and low prices.

This spreadsheet give the high, low, and average daily price for every Thursday between January 2008 and December 2014. The final columns for each year also report the average for the year and high and low price for the year.

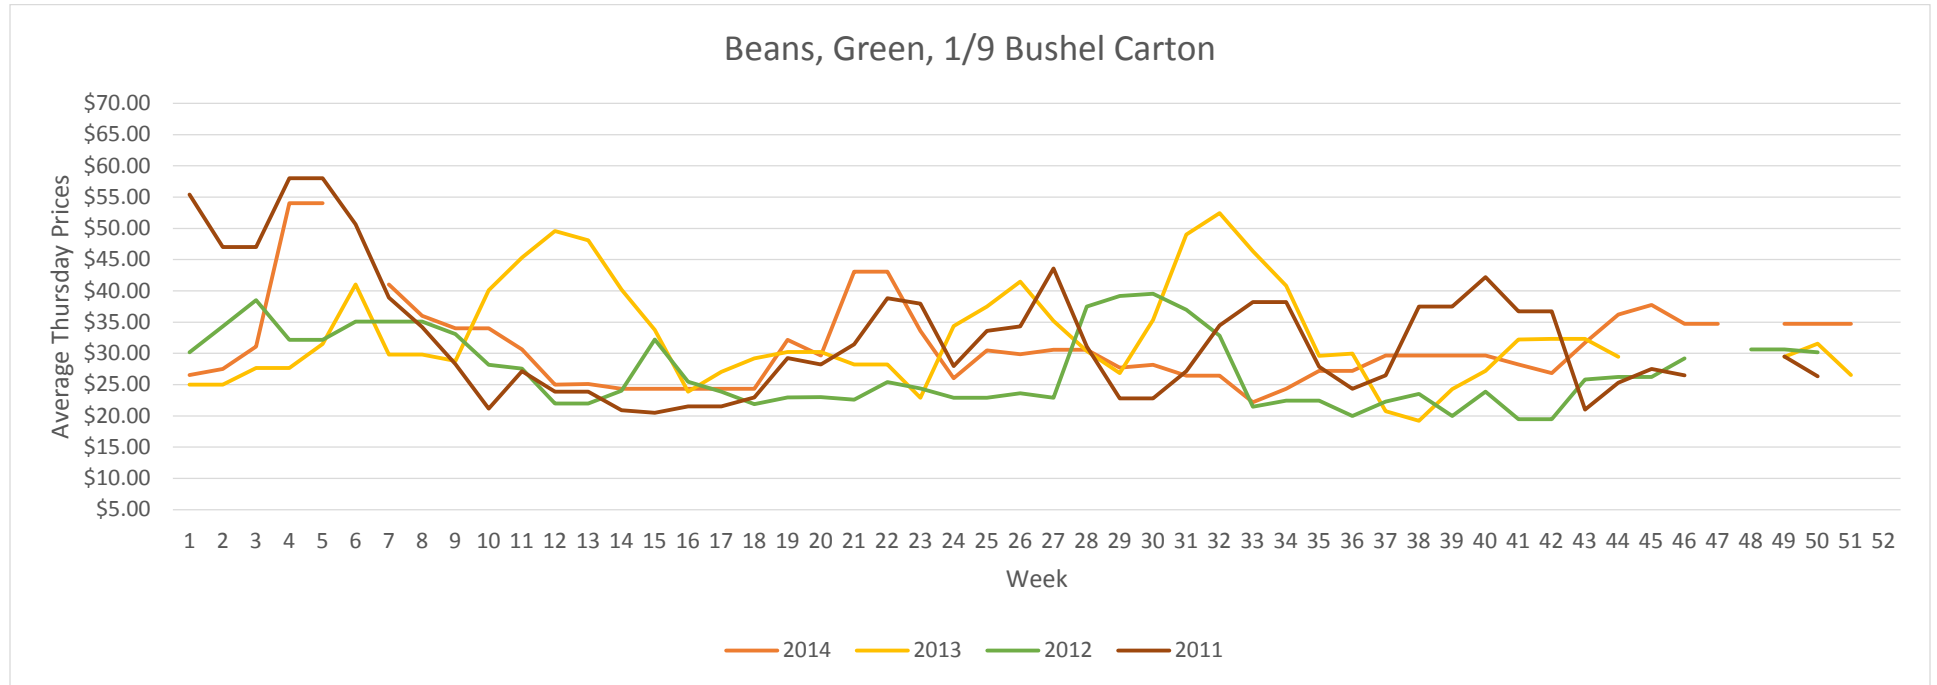

For daily "real time" pricing see: [www.ncagr.gov/markets/mktnews/Index.htm](http://www.ncagr.gov/markets/mktnews/Index.htm)

For more information on the NC Growing Together project, which sponsored the creation of this spreadsheet resource, see: [ncgrowingtogether.org](http://ncgrowingtogether.org)
